STATE REQUEST
↑

Describe any special condition that justify the granting of this variance request and are peculiar to the property and do not apply to other properties in the general area. What are the reasons for the variance and why the applicant cannot meet the stated code requirement?

To Operate Coast Fun Mechanics LLC
For A Period of 6 months while Building

Describe how the special condition discussed in #1 above is not the result of actions taken by the applicant. Show that the applicant did not cause the need for this variance request.

Show that an unnecessary hardship exists due to the character of the property and that this hardship makes the request for the variance necessary. State what hardship is caused if the applicant is required to meet code requirements? What is the result of this hardship? What would result if the Zoning Board denied this request?

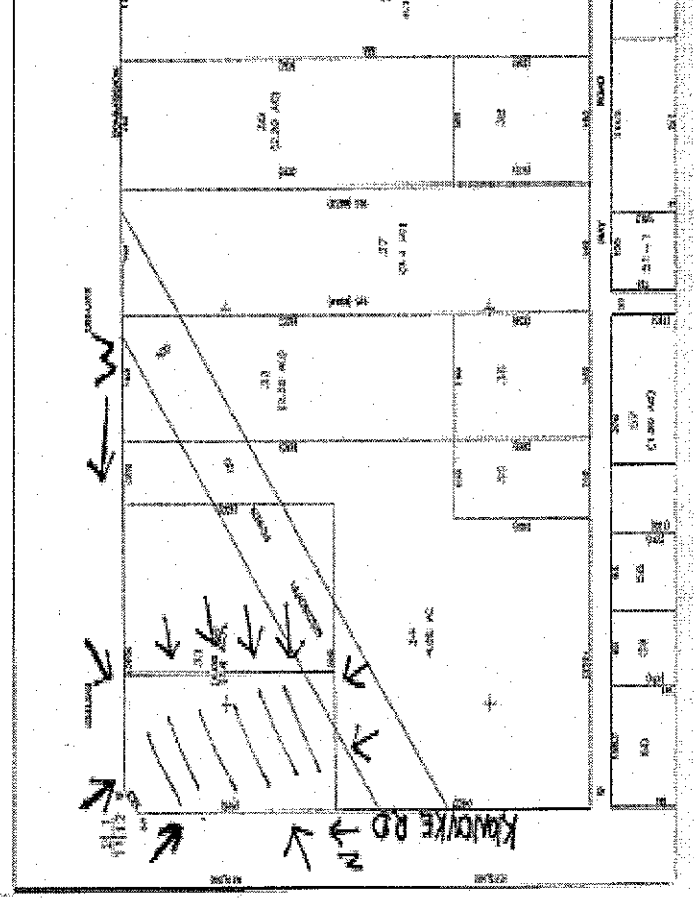

Show that denial of this request will deprive the applicant of rights commonly enjoyed by other properties in the general area and that the granting of this variance request will make possible the reasonable use of land while not conferring any special privilege. Outline how the subject of the variance is common in the area and if the applicant were to be denied this variance a right would be taken away which was granted to other properties. States how the variance makes reasonable use of the existing land and why the same action cannot be done in a way that does not require a variance. Show that the granting of this variance does not give the applicant any special privileges that the properties in the area would find desirable.
